Company

Mars was started in the year 1999 by a group of IT professionals with Head Quarters in Bangalore.

Mars has the necessary infrastructure and know-how to provide the best technical Solution, implementation and high level competence for post installation support.

The organizational philosophy ensures the specific needs of customers are met with the best of technology solutions.

Mars Infosystems is the one-stop-shop for your requirements of products, solutions & services.

Company

Mars Infosystems is a Complete IT Solution Company providing

Products

Supply and Installation of Desktops, Laptops, Servers, Accessories and peripherals to post Installation support.

Solutions

Expertise in the areas of System Integration, Networking, Security & Storage Solutions.

Services

Wide range of services like IT Consultancy services, Implementation Services and Managed Services including Help Desk Support.

(Earlier Known as MARS TECHNOLOGIES)

Business Partner

Non-Exclusive partner for purchase and resale through distribution of products subject to terms and conditions.

As an alliance partner we can offer clients choice and value. We have the solutions, tools and resources to help clients speed time to application deployment, optimize infrastructure capacity, reduce power consumption and free resources to focus on innovation that drives business growth

Through the Alliance partner program, clients realize the following benefits:

- Simplicity and ease of implementation for any workload with tools that automate integration and solution deployments
- Reduced cost of implementation with converged infrastructure “ready” applications that are pre-tested for rapid deployment
- Single source for interoperability information
